

TECHNOLOGY FOR AN EVOLVING WORKPLACE.

Solutions and support to
meet your changing needs.

The Future of Work is Here.

The world is changing, and nowhere is this more apparent than in the workplace. As cloud technologies empower mobility like never before, your office becomes anywhere with an Internet connection. But with these revolutionary changes come significant challenges. That's where we come in. Knight Office Solutions provides full-service IT support with 24/7 network monitoring, in-house help desk, and proactive system security. We take care of the day-to-day so that you can focus on what lies ahead.

Tailored Support to Power Your Office.

Managed System Security

As the threat of cyber attack continues to grow, IT security has become mission critical for organizations of every size. Adopt a proactive security posture with Knight's advanced security management.

Cloud Consulting & Migration

Security, control, scalability—there are many reasons why an organization might choose to go cloud. But without proper planning, those advantages may come at an unexpected cost. Knight can help you navigate the cloud to get the most from your migration.

Mobility Management

Give your employees the freedom to work anywhere and from any device. Our industry-leading mobility solution provides the same level of security whether your users are on-campus or working remotely.

Backup & Business Continuity

What would you do if something happened and your primary server went down? Planning for business continuity is critical to ensuring that your organization can bounce back quickly when disaster strikes.

Application Development & Integration

Informed by a thorough assessment of your IT requirements, our custom development services can help improve your business processes to ensure that your IT environment runs at peak performance.

Help Desk

As an extension of your internal resources, our locally-staffed help desk is available to answer questions, address issues, and manage users at your request. Let us develop a support program tailored to your specific needs.

Are Managed Services Right For You?

You Don't Have an IT Department

You know you need to modernize your IT program, but you just don't have the time to invest in hiring, training, and process development. Knight Managed Services free you from the burden of developing an internal IT infrastructure.

IT Is Overburdened With The Day-to-Day

The demands on an IT department are many. From networking and security to backup and disaster recovery, many teams feel as though they are working under a never-ending stream of inbound job tickets. Reclaim your team's schedule with Knight Managed Services.

You Need to Maintain Technical Compliance

Don't let regulatory concerns interfere with your work. From HIPAA to GLBA, our experienced solutions consultants can help you identify and address your compliance requirements. The end result: You can get back to the business of running your organization.

You Need High-Level Expertise

Where are my security vulnerabilities? What operations should I move to the cloud? Is it time to update my on-prem infrastructure? Whether you're looking for a full strategic plan or you just need some good advice, Knight's vCIO services can help you navigate your trickiest IT issues.

Service That Speaks For Itself.

4.96/5.0
average user satisfaction*

*Reported figure represents an aggregate average of responses to questions measuring staff demeanor, technical proficiency and speed of service. Reported period: November 2019 (survey established)–March 2020, 8 percent response rate.

Partner Well
